

200-HOME PROJECT FOR SNOWDON

A \$500,000 mobile, modular home development was announced Tuesday in Snowdon Township.

To commence early next month, the 200-home subdivision will virtually double the township's present year-round population of 500 persons, once completed.

The development is to be located less than two miles from the village of Minden and will provide homes at prices ranging from \$18,000 to a high of \$50,000 for a large, two-storey modular home. Most homes will be in the \$20,000 to \$30,000 range.

The 98-acre site will provide approximately one-third acre for each house, each home owner purchasing a home but leasing the land.

In announcing the project Snowdon Deputy-Reeve Don Smedmore stressed the cooperation and teamwork of Snowdon council members in bringing this about.

"This is without doubt one of the biggest things ever to happen in our township and will prove a real, substantial boon to Haliburton County as a whole," Mr. Smedmore emphasized. He said that approvals alone for the project had required some seven months work in order to bring it about.

For Snowdon Township, already totally debt-free, the new subdivision should prove a real money-maker. In his agreement with the municipality developer P. G. Arnold of Bramalea has agreed to supply not only water, septic and roads but to provide snow-plowing as well, at no cost to the township.

Mr. Arnold has also agreed to collect all municipal taxes from the 200-home subdivision on the municipalities behalf.

It is expected the first sample homes will be on display by early July, with full completion of the project expected within two years.

Dogs maul
4 year-old
boy

A four-year-old Eagle Lake boy is recovering after he was knocked down, bitten and clawed by two German Shepherd dogs last Thursday afternoon. Peter Dean McKnight was accompanying his mother, Mrs. Sharon McKnight, on her 'Avon Lady' calls in the Eagle Lake area at the time. According to police Mrs. McKnight had just approached the home of Donn Powell, 30, and Susan Field-

At Last

The rebuilding of last year after a rebuilding was completed except for final touches to the permanent reopening of the temporary Bailey Bridge began. Minden's Sunny-brooke Bridge is now complete. Begun late crumbling of concrete and general deterioration was noticed, the paving by late December. This week saw workmen add the final touches to the refurbished bridge, the disassembly of the temporary Bailey Bridge began.

\$25,000 grant to Lutterworth

Lutterworth Township announced late yesterday that it had received a special supplementary grant of \$25,000 from the Ministry of Transportation and Communications for construction purposes.

A happy Lutterworth Deputy-Reeve Bert Shingler said that the monies would likely be used to repair the Devil's Lake road which was washed out by floods this Spring.

The total subsidy from the Ministry is some \$80,300. Of this amount \$38,900 is ing. When Mr. Powell answered her knock, the two dogs burst through the door as he opened it, then knocked the terrified child to the ground. After Powell pulled the dogs off the little boy, he was rushed to the office of Dr. B. Pierce of Haliburton where he was treated for bites and scratches to the

allocated for construction purposes while the remain-

County to get
large-animal vet

Haliburton County will have the services of a large-animal veterinarian, the provincial government announced late last week.

Agriculture and Food Minister Bill Newman said his mouth, face and bridge of the nose. Police say they have summonsed both Fielding and Powell under the Vicious Dog Act to appear in court and show cause why the two dogs should not be destroyed. Investigation by Provincial Constable Jim Martin.

ing \$41,400 is earmarked for maintenance.

ministry, in co-operation with the Haliburton County Veterinary Services Committee, intends to secure a veterinarian who will establish a practice in the county. Haliburton County will have to bear only \$1,000 of the total \$8,000 cost for the veterinary service, under a financing policy of the provincial government. In addition, the veterinarian receives a provincial allowance of 15 cents a mile for mileage incurred in providing services to livestock owners. Mr. Newman went on to say

Thieves "clean haul"
lumber office

Thieves made a 'clean haul' at Haliburton Lumber offices last week when they not only stole money from the till but also made off with the company's safe and all its contents. The break-in and theft was discovered last Saturday morning when employees arrived at the business around 8 a.m. Haliburton Lumber co-owner Murray Fearrey estimated that some \$3,000 in cash and cheques was stolen, as well as the 350-

500 pound safe. Fearrey said he didn't leave his office until around 10 p.m. Friday night and it was some 8 hours later before the theft had been discovered. He said that the thieves had apparently picked the lock on the back door to gain entry, and had done a 'neat job' of pilfering the place. The investigation is being carried out by Provincial Constable Bill Clendenning.

The Haliburton Highlands Chamber of Commerce

Our new signboard is now in place in front of the Minden Office. In the one short week it has been installed it has certainly proved to be an attention getter. We have noted with interest that visitors driving into our parking area tend to walk over to the sign and examine it first before coming into our office. We are very sure that the members who took advantage of advertising on this signboard will find it very worthwhile and that considerable benefit will be gained through the bulletin board section in the centre. Our first coming event to be advertised on this bulletin board is the County Fair Board upcoming Beef Bar-B-Que on June 11th. If you keep us informed we can get your coming events up in lights also.

It was the suggestion of some of the advertisers on this signboard that we investigate the possibilities of acquiring a phone booth for the same area. The Bell Telephone has agreed to install one and have promised to have it in place within the next few weeks.

The Haliburton Guild of Fine Arts inform us that this year they have changed their format somewhat for their summer exhibition and sale. The sale this year will run for 10 days, from July 6 to 17 with hours from 11 - 9 Monday to Saturday and 1 - 4 on Sundays, at the Haliburton Senior Elementary School. This popular event attracts many people from the city and in fact some tourists even plan their holidays around the dates of this exhibition and sale.

The Haliburton County Social Planning Council recently produced a 48 page directory of community services in Haliburton County. This very complete directory tells you who to get in touch with and where for virtually every type of service organization that exists in our area, such as churches, clubs, government agencies and privately owned recreational facilities. This valuable book is available at only \$2.50, which barely covers the cost of producing it, and can be purchased from the Chamber of Commerce Office or at the School of Fine Arts in Haliburton. We make use of our copy almost every day.

Congratulations to Wilberforce. In case you missed it, Wilberforce was recently written up on the front page of the Toronto Daily Star and referred to as 'The Village of Achievement'. This recognition is certainly well deserved.

It has been often said that Haliburton needs a good boat tour facility. Well we almost have one now. We say almost because beginning this summer there will be a boat tour available in Dorset which is in Haliburton but the tour takes place on Lake of Bays which is in Muskoka. It's a step in the right direction and we welcome Captain Doug Russell of Muskoka Boat Tours to the area. If this operation is successful maybe the next step will be to get a full pledged boat tour on one of our own lakes in the not too distant future.

Our Young Canada Works Program 'Spruce up for Tourism' will be getting under way towards the end of this month. The local students that will be working on this project are Andy Hill, Sheila Elder and Carl Northey. We look forward to seeing the paint brushes in action.

Our Canada Manpower office in Haliburton has been extremely busy this spring placing employees and students in the many programs that are now under way. They do advise us that at the moment in many categories they have more openings than they have job applicants. This is particularly true in the area of skilled labour. We would like to remind everyone that the Manpower Office cannot help you unless you are registered and that it costs nothing to register. This is our Canada Manpower office, let's make sure we make good use of it.

This week's 'tip of the hat' goes to Stinson's Store at Carnarvon. Doreen and Leonard Stinson (no relation to the writer) have been dispensing goods and hospitality in that area for over 15 years. There are not many places left these days where you can stop in for a cup of tea served in a silver pot, with a china tea cup and have a slice of homemade bread and piece of homemade pie, and Leonard's homemade pies are becoming famous. In addition to that the homey atmosphere of their facilities makes one really feel comfortable. With this busy operation they have also still found time to get deeply involved in all forms of community affairs. These folks are not only good for tourism, they are good for our community.

It's that time again when the watchword is 'Vote as you like - but vote'. We would like to add to that that voting is not just a right, it's a responsibility and it is your responsibility to use it wisely. The Chamber does not take sides in elections, we can only ask that you give serious thought and consideration to who you are voting for and why.

COMING EVENTS

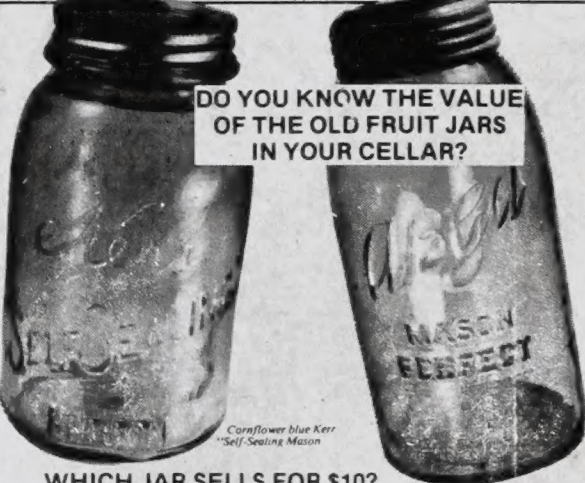

June 11 - Beef Bar-B-Que & Dance at Minden Community Centre - \$10.00 per couple for dinner and dance. \$6.00 per couple for dance only. Music by Misty River Ramblers. Proceeds for County Fair. Social 6 - 7. Dinner 7 - 8:30. Dance 9 - 1.
June 15 - W. I. 70th Anniversary Party at United Church Hall, Minden.
June 17, 18, 19 - Display of Art by public School students at Hyland Crest Home 1:30 to 4:30. Sponsored by W. I. BINGO every week -
Monday at West Guilford in the Recreation Centre.
Tuesday at Gooderham in the Orange Hall.

Kinmount Legion News

by Sam Telford

On May 27th, in the Legion Hall, newly elected and appointed officers were installed in a joint ceremony with the Ladies Auxiliary. Zone Commanders Doug Worrall, and Phyllis Montemiglio of the Ladies Auxiliary chaired the meeting, together with Comrade Albert Crego, who was re-elected as president.

The Sergeant-at-Arms for Zone F4, Lyall Welch, conducted the colour party, and escorted the new officers to the commanders' table to have their offices confirmed, as follows:

Padre

After the installations were completed, the treasurer of the Auxiliary presented the branch president with a cheque for \$1,500, as evidence of the Ladies' continuing financial support. A framed Certificate of Excellence in public relations, signed by Cliff Cote, District Commander, and Hank Pysky, District Public Relations Officer, was presented to the branch. A reception was held after the meeting with fifty of the branch members.

Farm

News'n

Views

FROM THE LINDSAY AGRICULTURAL OFFICE

CURRENT CROP CONDITIONS

The showers last week were general across all parts of Victoria and Haliburton Counties, and also most other areas in Southern Ontario. This rain ended a dry spell which was becoming serious for many farm crops.

The rainfall recorded for May was 46 mm (almost 2 inches), of which 26 mm was received last week.

During May we had above average temperatures and many more hours of sunlight than normal. This has created two problems in our hay crops.

First of all the grasses and legumes have matured much more quickly than usual. The best time to cut hay to get the most food value from it, is when the grass heads have just emerged and the legumes are just starting to bloom. Many hay fields are at that point or even past it already, so need to be cut as soon as possible.

The second problem is alfalfa weevil. The eggs have hatched rapidly and many fields have a heavy infestation of weevil which are rapidly eating off the alfalfa leaves.

These leaves contain much of the feed value for livestock, so it is important to cut the alfalfa as soon as possible to save the leaves that are still there. In addition, cutting the crop removes the food source from the weevil and most will die before they reach the adult stage. This then helps to prevent even greater numbers of weevil in the next generation.

Many farmers are concerned about cutting their hay now because there is not nearly as much height to it as usual. However even with last weeks rains, we are NOT going to get much, if any, increase in actual food value by leaving many hay fields to grow more. Most of the additional growth now will be fibre which animals are not able to digest.

There may be more hay to handle from these fields, but there will also be more manure to handle as well later on.

Taking a first crop of hay off early will enable the field to regrow a second crop. The total amount of digestible feed for your livestock can be a lot higher from an acre as a result.

The recent dry weather has affected the weed control on many corn fields. Farmers who sprayed their corn for weeds with a preemergent or early post emergent herbicide should check their fields to see how effective the control has been.

If a number of weeds have escaped the herbicide, you should consider cultivating or scuffling the field, or respraying with another spray such as 2, 4D.

COMING EVENTS:

Mon., June 6 8:00 p.m. - Executive meeting Haliburton County Livestock Producers Association, Minden.
Tues., June 7 - Victoria Soil & Crop Improvement Assoc. bus trip to 'Forage Days '77' at Elora.
June 14, 15, 16 - Pork Congress at Stratford.

ELECTION ROUND UP

Progress reporter Dwight Thomas interviews Mr. Eakins during last week's Lindsay luncheon.

The likelihood of the Provincial election race hotting up as the campaign swung into its final few days seemed unlikely, at least amongst the candidates themselves. Any fire and brimstone on the horizon seems to stem from fired-up supporters and their over-zealous enthusiasm. While PC candidate Jim Webster continued to draw rather disappointing crowds at organized rallies and suchlike, Liberal incumbent John Eakins still packed in with standing room only to the general rule. For NDP candidate Fred McLaughlin it's been a time of increased opportunity to speak to voters at candidates meetings and at radio and television debates by the candidates.

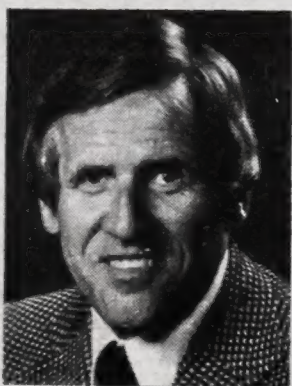

Jim Webster and Provincial Treasurer Darcy McKeough during a quiet moment at Monday night's barbecue

Liberals

1,500 rally for Eakins at Ops

Victoria-Haliburton incumbent Liberal M.P.P. John Eakins hosted a rally at the Ops Community Centre last Friday night which drew some 1,500 plus enthusiasts. The crowd was so large that many had to stand outside the arena. The huge gathering came on the heels of an equally successful campaign luncheon held at the Royal Canadian Legion in Lindsay earlier in the day. Some 100 persons packed the hall to hear Eakins reaffirm his platform of giving more assistance to the small business community, as well as consolidating strong support for the tourist industry in Victoria-Haliburton. Eakins said he would stand or fall on his record of providing good representation to all corners of the riding. 'I've worked hard, damn hard, to do my best for the people of my riding, and I trust the voters will remember my hard work when they go to the polls on June 9th,' Eakins said.

Eakins told the gathering that 'it was nice to see so many persons in attendance considering we don't have a cabinet minister to show off.' Earlier in the week Liberal leader Stuart Smith told a rally in Thunder Bay that the Conservative government had 'failed our young people'. Smith said Premier Davis had failed to equip Ontario's young people for an economic climate in which they will have to work harder, compete more fiercely and scramble faster than any recent generation of Ontarians. 'Davis has created an educational system which actually discourages young initiative. Hard work, competition and discipline will be the keys to success and survival for our young people. But these qualities are almost non-existent in the Davis system of education,' Smith said. Smith also pointed out that a 'Liberal government

would force government to live within the same anti-inflation guidelines that control our income. No tax, rate or fee - including property tax - will be allowed to increase faster than your income. That won't be easy to apply. But it is possible, and it's essential to make room for the job-creating private sector of our economy to grow again.'

N.D.P.

No room for you and me under Tories

'There is no room left for you and me to participate in local government under the Tories' Regional Government policy,' said Victoria-Haliburton New Democratic Party candidate Fred McLaughlin last week as he addressed students at the Fenelon Falls Secondary School.

'The Liberal party seems to be going nowhere fast as their performance in the last legislature indicates. This, of course, does not reflect in any way on Mr. Eakins' ability but is a product of our institutional framework.'

McLaughlin continued that, 'if, on the other hand, Mr. Webster is elected and the Conservative government has a majority we will have to spend the next four years putting up with the uncaring attitude of Tory rule which we experienced for more than thirty years.' McLaughlin also pointed out that the sell-out of our resources to foreign countries has cost us jobs which are badly needed here. He said that jobs have literally

Fred McLaughlin

been exported along with our raw resources and that this unimaginative approach to economic expansion has been responsible, in part, for our high unemployment and has caught up with us in 1977. Outlining his party's policies, McLaughlin pledged to set up a financial agency which would help small business people cope with their financial needs - to give them the needed assistance which they can not get under our present government. Another project, about which McLaughlin is very

enthusiastic, is the establishment of methyl alcohol plants in Ontario. He said the methyl alcohol is produced from wood and can be used as an alternate energy supply to gasoline. He said Haliburton is an ideal location for such a plant and that he would fight very hard for one in this area if he were elected. He went on to point out that because Haliburton is situated on the Canadian Shield there would be no interference with good farmland and that Sir Sanford Fleming College has the facilities to provide the technical skill required. He also noted that such a plant has the capacity to provide up to 40,000 jobs and because of the renewable aspect they would be permanent jobs. McLaughlin concluded that, 'the beauty of this election is that now, in 1977, you can make positive approaches to government a sense back to government by electing a New Democratic Party government.'

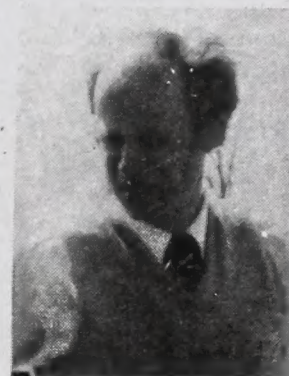

P.C.'s

Just 75 show up for P.C. barbecue

Progressive Conservative candidate for Victoria-Haliburton riding, Jim Webster, brought his campaign wagon to the Minden-Haliburton area this week with a beef barbecue rally at Wig-a-Mog Minday, featuring Provincial Treasurer Darcy McKeough, and a Tuesday night meeting with voters at the Minden arena. Just 75 persons were on hand to greet the Provincial Treasurer at the barbecue as he made his way through the riding - his next stop was at Fenelon Falls later that night. Webster's speech centered on what the Progressive Conservative government has done for Victoria-Haliburton. He cited improve-

ments ranging from road construction to sewer and water projects in Minden, Fenelon Falls, Haliburton and Woodville as well as proposed sewer project in Bobcaygeon. Other items mentioned included senior citizens' and low rental housing units in Lindsay, Bobcaygeon, Fenelon Falls and Omemee.

Webster also pointed out that in the last year, through the Ministry of Culture and Recreation and Wintario grants, three and a half million dollars has been poured into Victoria-Haliburton for community centers, arenas, public libraries, the theatre and arts, curling clubs, Sir Sanford Fleming College, Lindsay swimming

pool, and the Haliburton County Snowmobile Association. 'Every municipality in this riding has received grants for some project,' Webster said.

42 Incher

Sean Haggerman, left, proudly shows off the beautiful 42 inch, 15 pound lunker Muskie he landed on Sunday morning. Len Hag-

german, Sean's father, landed the fish after a fifteen minute battle. 'He just swam right into the net,' said Lenny. Sean landed a

32 inch, 7-pounder on Saturday as well. Sean landed both lunkers, using a 7 inch repalla on 12 pound test.

Editorially

Your Vote

One of the great dangers in any election is apathy on the part of the voter.

A paucity of issues, a generally dull campaign or the blythe assumption that a candidate is a "shoe-in" are the usual reasons for voter apathy.

Most Victoria-Haliburton voters have decided by now on the candidate they plan to endorse at the polls.

But if having made that decision you fail to cast your vote, you are in effect supporting the other two candidates by your absence from the polls.

Make sure YOUR candidate gets YOUR vote.

THE LUCKY ONE

That Season

Once again it's that season of the year when highway traffic takes a horrendous toll of our wildlife.

Recently the highways of Haliburton have been dotted with the corpses of small animals and birds, too, struck by passing traffic.

Many of the dead animals appear to be of this year's crop of young ones.

Yes, motor vehicle traffic and the roads it travels on are a continuing danger to our wildlife.

Surely a little slower speed, a little more care in driving would help reduce this toll.

Report from Parliament

by

William Scott M.P.

During the last week of May it was my pleasure and privilege to attend the Spring Conference of the North Atlantic Treaty Organization (NATO) as a member of the Canadian Parliamentary delegation to the North Atlantic Assembly.

The rule book defines the North Atlantic Assembly as follows—"The North Atlantic Assembly is a body of parliamentary delegates who meet once a year in plenary session, and who are selected from among members of parliament of member countries of NATO."

The Assembly is the forum within which the parliamentary delegates discuss issues of common interest to the governments of member nations, and, it also provides a means of exchanging information on matters of military, scientific and political interest to the members, and to the Alliance itself.

research done by the Rapporteurs, and of the wealth of information presented on the topics covered in the symposiums.

During the week before I left for the meeting, which was held in Brussels, I attended daily briefings by military officials to prepare myself for the military sessions at the Assembly meeting. Because of the fact that NATO is primarily a defence alliance of Western nations, off-setting the threat of the Warsaw Pact nations, the military briefings and sessions are an important aspect of these meetings.

However, I learned on this trip that NATO means a great deal more to its member nations than just a defence alliance, and a forum for the exchange of military hardware and information.

During the week of the conference we attended symposiums, where papers were presented by members selected in advance. The reading of papers was followed by discussions, and afterwards the pertinent committee ruled on whether the paper, or parts of it, should be approved as being a consensus opinion of the Assembly. Although there is a provision for providing support staff for the member countries' delegations, all members of the Assembly are elected representatives of the governments of the member countries.

The papers presented at the symposiums are prepared by members who are designated Rapporteurs. These Rapporteurs are selected at meetings immediately prior to the meeting at which the papers are to be presented, thus allowing the Rapporteur several months to prepare the paper.

I attended symposiums of the committees on Military, Scientific and Technical, and Political matters. Throughout the sessions I was impressed by the thoroughness of the

NATO members exchange information and expertise on a wide variety of scientific, technical and political matters, ranging from the latest techniques for obtaining fresh water to the search for a safe means of disposing of nuclear waste, and from the research into alternate sources of energy to the promotion of nutrition and health in developing nations.

I was particularly interested in the symposium on the disposal of nuclear hazardous waste, in other words, the long-term safe disposal of nuclear waste. The sessions on this topic bore out the fact that one of the most difficult problems facing nations that use nuclear reactors in the generation of electricity, is how to dispose of the waste material from the reactors.

Canada is presently faced with this problem, and we have not worked out a solution to the problem. But, neither has any other member country of NATO. Like other countries, we are only involved right now in short-term care of nuclear waste, but we are going to have to work out a safe, acceptable means of permanent storage of the waste.

Hall's
Lake
News

Doreen Stinson

Another week of changeable weather. The rains came and cooled things off to the point that fires had to be lit again to take the chill off the house. Now we have the big black blow flies and the dragon flies, both of which have a purpose.

Conversations seem to fluctuate between the weather and the election coming up. Those who will not be around on Thursday, June 9th, are taking advantage of the advance poll today at Minden. We have had the P.C. man around twice, but still haven't had the Liberal or the N.D.P. candidates. Guess it is hard for them to get into every nook and corner, but it is nice to meet them personally.

Sorry to learn the Mrs. Edith Russell has been on the sick list in the Minden Red Cross Hospital, and trust she will soon be feeling much better.

Glad to see Mrs. Elsie Bursey back home after surgery in a Toronto Hospital.

The Hyland Crest Auxiliary met last Monday evening and the Concert 'Music Night 77' to be staged at 7:30 p.m. at Archie Stouffer school in Minden on the evening of June 20th was discussed and tickets given to each member to sell to friends and neighbours. The proceeds from this Concert will be divided between the Student Activity Fund and the Hyland Crest Auxiliary. Get your tickets from Auxiliary members, or students, or Mr. Lorne Coburn of Minden.

Since the Auxiliary members had already planned on their end-of-season pot-luck supper for the evening of the 20th, we are going to go ahead with it and ask all members to be on hand at 5:30 with their favourite recipe and utensils to eat with, to save washing-up time.

The Auxiliary will be helping with the afternoon tea during Senior Citizens' week, on June 23rd, along with the United Church ladies from Haliburton who have taken on the month of June at Hyland Crest for the Thursday afternoon teas.

On Friday a lovely new bell tower was erected on the roof of St. Stephen's Anglican Church at Boshkung. This tower has been planned for and talked about for several years. Mr. William Gartshore designed and constructed it and with the assistance of Mr. Hart, Mr. Stinson, Mr. Hough and the Progress reporter - photographer Cliff Burke, it was put into place. This new addition to the beautiful little stone church is a lasting tribute to the memory of Mr. Lawrence Wheeler, an assistant Warden and faithful member of St. Stephen's, for whom a memorial fund was set up by family and friends. A big thank you to all those men who helped with this project.

Pat and Ken Scott of Hamilton are entertaining friends from England at their cottage at 'Carey's Point' this week-end and showing them around all the beautiful spots such as Buck-Slides, the Hawk Lake roads, the villages and parks and a drive up the highway to view the connecting Lakes and the view from the Dorset tower. They think this is lovely country.

We wonder if there is a shortage of paper these days? Judging by the quantities of junk mail that comes through every week (which finds its way immediately into the garbage can) - there is some question as to how much waste is being condoned. Do all the Lindsay and Peterborough stores have to cover every householder in the whole County? Surely the stores up here like people to shop at home once in a while! Do they send their advertising down to Lindsay and Peterborough expecting their people to drive up to Haliburton to shop? Just curious, that's all!

Mrs. Flora O'Brien of Halifax and her daughter and son-in-law from Mississauga visited with Mr. and Mrs. Cecil Irwin this week-end. Mrs. O'Brien has been a friend of the Irwins for many years. The Irwins had Mrs. James Kelly and one of her twin sons visit with them a week or so ago. Mrs. Kelly was Camp Cook at Sherwood Forest for the last ten years the Camp was in operation, having ceased in the year 1964. The Kelly family now live in Los Angeles.

Don't forget June 9th is the day to exercise your franchise!

Lock all ladders out of sight around your house. Your home is better protected that way.

W.I. meeting

Last Wed. morning, a Travelways Bus Chartered by the Women's Institute, left early via Haliburton and Bancroft for their annual bus trip. After a coffee break near Madoc and a chance to stretch their legs the happy crowd was off again for Kingston. Reaching the Queen Street United Church a little early, many went upstairs to have a look at the church itself, formerly a Methodist one built in 1868. Then all were ready for the Buffet Luncheon with a goodly supply prepared and great tea and coffee. From here our genial and well-informed driver, Bill Holland took us to the home of Sir John A. Macdonald. After this tour including a view of the

first Canadian Parliament Buildings and the prison, and through the Queen's University Campus. Then on to Fort Henry passing through the earlier settlement with homes in native limestone and seeing the ferries en route to some of the Islands. Historic Fort Henry has the traditional military setting and well-informed guides showed us around and answered our questions. Cameras were out on this pleasant day and many will have their personal views to show later. After this on to a Shopping Mall, most shops closing at 5:30 and after supper, rather foot-sore the crowd were back on the bus. One

more stop for coffee or fully, and soon we were lunch was the last break back in our County. Every-on the way home. The old one had an enjoyable day favourites were sung, noisy- and are looking forward to ly, sometimes not too tune- the next W. I. Bus Trip.

Seek
witnesses
in dog
shooting

Investigating OPP officers are seeking witnesses in the shooting death of a pet in the Birch Narrows Road area near Grass Lake. According to police a dog owned by Dolores Hall was romping near her Birch Narrows Road home near Haliburton when it was struck in the left leg by a .22 calibre slug. Believed to be an expanding dum-dum bullet, it passed through the leg, then splintered into the chest. Rushed to a veterinary office in Wilberforce, the dog died on arrival. Following questioning by police a neighbor of Mrs. Hall voluntarily turned over a .22 calibre rifle to police for test purposes. Anyone with any knowledge of the incident is asked to contact the O.P.P. at Minden. Investigation by Provincial Constable Jim Martin.

The Reeve's Corner

by Reg Booth
Reeve, Anson, Hindon & Minden

In Minden we are going through a period of traffic disruption which will cause some difficulty for business and for travellers through most of the summer.

To those who are visiting, and to those who have cottages in the area we would like to say that all of our area residents will be pleased to help or advise regarding the best way to get around on our streets. Because this will change from time to time during the next month or so, we ask that everyone make an effort to help any visitors, and that all show patience in dealing with these problems.

The sewage system will be of great assistance to the growth of Minden area, and after the mess is over we will all reap the reward of our present effort.

We should all remember that those who are doing the work on the project are working for a living, and as such deserve our assistance in order to get the job done.

In some areas the job is difficult because of the nature of the ground.

Minden Red Cross Water Safety Programme

Water Safety Week

June 5th to 12th.

SAFE SWIMMING

1. Swim at supervised swimming areas.
2. Always swim with at least two other people, never alone.
3. Exercise caution before diving by making sure the water is deep enough and hazard free.
4. Swim in daylight when you can see and be seen.

5. When tired and overheated, stay out of the water.
6. Never rely on inflatable toys or air mattresses for support.
7. Get information and enroll in a water Safety Training class in order that you may enjoy safe swimming and water activities.

About the Town

with Jeanne Sears

We will miss the commercials on radio and T.V. from our candidates, but we hope you all took the time and interest to vote.

Congratulations to the newlyweds Mr. and Mrs. Vern Graham (nee Margatet Ann Cockman) and Mr. and Mrs. Miles Trumbull (nee Sandra Janette Goodfellow) whose weddings were Saturday.

Lucky winner of the Clock-Radio raffled by the Scouts was Ernie Walton of South Lake.

Once again a request, we wonder if you have found among your parents' or grandparents' papers some Women's Institute Minute Books. There are several of these missing and Minden W. I. are anxious to find these as they have a safe place for storage; the books are black with red bindings. If you find any of these, please drop them in at the village library as they are truly invaluable.

Chris and Ed Pergolas report having a grand visit with Mr. and Mrs. Joseph De Partout of Buffalo, N.Y.

Don't forget to come and see the free School Fair Display from Archie Stouffer Public School at Hyland Crest Auditorium Sunday, June 19th from 1:30 to 4:00. Winning entries only will be shown at the Fair in August.

Congratulations to Karen Arbuthnot who won the Jackpot of \$250 at Rotary Bingo last Thursday night in 57 numbers.

Do you think this is true? Life is a grindstone and whether it grind a man down or polishes him up, depends upon the stuff he is made of.

Anon

Mrs. Eldridge Bull enjoyed a week's visit in Toronto with her sisters.

Sgt. and Mrs. Dennis Moore of Halifax, N.S., are spending their holiday with his parents Mr. and Mrs. Bill Moore and other relatives.

The Women's Institute had an Executive Meeting at the Library last Wednesday afternoon when they planned the programmes for the coming year.

Mr. and Mrs. Angus Coulter and Garnet Coulter visited on Sunday with Mr. and Mrs. Abe Upton at Utterson.

At the last card party of the season by the L.O.B.A. winners were for euchre, lone hands: Vera Fuller and Shirley Elcome, Trudy Coulter, Phil Robinson and Bill Elcome and for cribbage: Loyne Cox. The door prize was won by Flo Dollo and the planter Mrs. Gerald Cox with ticket no. 10. After the games all enjoyed a social half hour and the delicious lunch served by the ladies.

Mr. and Mrs. Archie Stouffer of Pembroke, visited in the village last week with relatives, friends and neighbours.

Cora Switzer of Lindsay spent last week visiting her sister, Mrs. Wm. Cox.

Mrs. Ernest Windover spent last week in Lindsay and attended the Garden Party and Luncheons when Flora McDonald and Roy McMurtry were guest speakers.

Reta and Art Hodginson have just returned home after a month's visit in Great Britain with relatives.

The 70th Anniversary Luncheon Party by the Women's Institute is slated for Wed. June 15th at 12:30 at the United Church Hall. All former members are welcome to come to this.

A survey by 7th Day Adventists finds that the three most frequent statements by fathers to their children are 'I'm too tired', 'We don't have enough money' and 'Keep Quiet'. Watch it dear old Dad!

Some rains last week, but we still need more, and some gardeners lost their seedlings in a frost. A good deal of traffic weekends, so take care. Cheerio until next time.

Mobile safety classroom to visit Minden

The construction site is a dangerous place to work. In order to alert construction workers in the Minden area to the hazards of their jobs, a mobile classroom manned by Construction Safety Association of Ontario instructors will visit

the construction in the Village of Minden on Thursday, June 9, 1977 at 10:00 a.m. and 1:00 p.m. to provide on-the-site instruction, discussion and audiovisual presentations.

Last year 17 construction workers in Haliburton

County suffered serious injuries which resulted in time lost from their work. There were no fatalities in Haliburton County. In Ontario, there were 18,460 construction injuries and 39 fatalities in 1976. The majority of these injuries could have

been prevented through a greater awareness of jobsite hazards.

**ONLY YOU CAN
GIVE THE GIFT
OF LIFE!**

Ever had the first three digits right
and then ended up not winning a prize?

Starting June 23rd draw:

You win 5 tickets* for the next draw if you get the first three digits right.

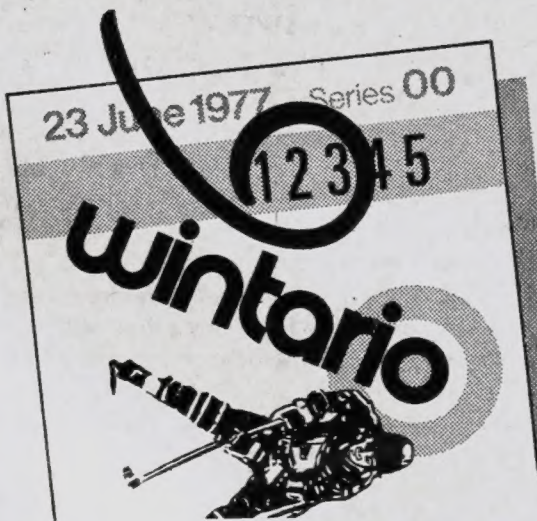

We know how it is. Sometimes you get the first three digits right, and then just as you think you've got it made, you find you didn't even win \$25. Well, Wintario wants everyone to win. So we've changed the game a little. We've added more prizes. (There are now more than twice as many — every draw!) And we've given every player more chances to win.

Here's how it works. Starting with the June 23rd draw, if the first three digits on your ticket are identical to, and in the same order as, the first three digits of any of the five Winning Numbers, you win a book of 5 tickets for the next draw — on us. A nice little windfall.

So what are you waiting for? Get a ticket — or a book of tickets — and play the game, every other

Thursday night at 9:00, live on TV.

*These prize tickets must be claimed within two weeks of the draw — and only from designated retailers displaying this sign.

Now more than
twice as many prizes.
And still just a buck!

Wintario

We all win

Advertising helps you to know.

Trespass brief seeks changes

TORONTO - 'Trespass should be defined as 'entry without permission' in the Petty Trespass Act', said Peter Hannam, President of the Ontario Federation of Agriculture today, in a recent brief to Attorney General Roy McMurtry on the subject of Trespass and Farmers' Liability.

Mr. Hannam explained: 'The problem of trespass is a growing concern not only for farmers but also for cottage owners and other rural residents.'

'As the law now stands, the land owner is legally responsible for any injury suffered by anyone on his property—unless he has fenced in his land and posted 'No Trespass' signs.

This concept should be overturned in a new Trespass Act and be replaced with a 'Positive Entry Signing' concept. The public would then know that they were NOT allowed to enter on private land, unless they have permission to do so either by positive signing or explicit permission from the landowner.'

Mr. Hannam pointed out that the problem is particularly serious for farmers. 'The modern farm can be a dangerous place for the un-

initiated and the unwary. Farm families are well aware of the hazards of barbed wire fences, machinery and farm chemicals. Trespassers often do not know about these dangers. Yet, the farmer is legally held responsible if they are injured. This is clearly unjust.

'To fence in land where fences are not needed for the operation of the farm is very expensive. It is also expensive and futile to post 'No Trespass' signs—especially when they are prime targets for vandals and irresponsible hunters.

'Further, modern farming involves increasing acreage and often second and third farms at some distance from the home farm. The result is that the farmer cannot police his own property. Even if he doesn't mind people coming on his land, the farmer cannot warn them of dangers.

'Vandalism is another problem. Even unknowingly people can cause major damage to crops and expensive equipment.

'OFA believes that farming should be regarded as the dominant land use in rural areas. This should be reflected in our laws. Trespass should be defined as

'entry without permission' without the necessity for signs and fences. Penalties for trespass should be increased to meaningful a-

mounts that would indeed act as deterrents. Fruit farmers, in particular, need real relief from pilfering.

'OFA believes these changes in the Petty Trespass Act are necessary as much for the protection of the public as for farmers. The public should have the use of

recreational land but it should be specified land designed for the safety of anyone and everyone. It should not conflict with food production.

'This type of protection now exists for landowners with respect to snowmobiles and it should be extended

to all other activities,' Mr. Hannam concluded.

FOREST FIRE QUIZ #1

How much do you really know about forest fires?

Statistics show that we don't know as much as we think we do, because every year people continue to be a major cause of forest fires throughout Ontario. Test your knowledge of the causes, cures

and costs of forest fires. Read the questions below and tick the answer you think is correct. When you're finished, check your answers against the right ones and see how much you really know.

1. Every year forest fires cost Ontario taxpayers approximately:
(a) One million dollars (b) Twenty million dollars (c) Six million dollars
2. A restricted Fire Zone means:
(a) Smoking is prohibited in the area
(b) No one is allowed in the area because of the fire danger
(c) Campfires are temporarily banned
3. Smoking while you walk in the woods is:
(a) Unhealthy (b) Dangerous (c) Illegal (d) All of the above
4. In Ontario, in an average year, how many forest fires are caused by children playing with matches?
(a) 50 (b) 20 (c) 140
5. It is hazardous to pile stones around your campfire because:
(a) The hot rocks will start a fire
(b) The stones could hide a live ember that could continue to burn even after you think you've extinguished the fire
(c) The rocks around the campfire will force sparks up into the tree tops
(d) All of the above
6. Failure to comply with any section of The Forest Fires Prevention Act of Ontario can result in:
(a) A \$1000 fine
(b) Three months in jail
(c) Liability for fire fighting costs
(d) All of the above

ANSWERS

'(p) 9 '(q) 5 '(c) 4 '(d) 3 '(c) 2 '(q) 1

Ratings: Six correct — you sure know your stuff

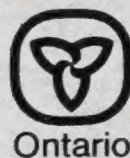

Four correct — above average

Less than four — you can pick up a copy of The Forest Fires Prevention Act from your nearest Ministry Office.

Elaboration on any of the answers given here is available from any office of the Ministry of Natural Resources.

This is the first in a series of four quizzes developed to increase public awareness of the forest fire problem in Ontario. Look for the others in recent editions of this paper, or get all four together in one folder from your nearest Ministry Office.

This year, let's not set the woods on fire

Algonquin Region removes fire ban

A ban on open fires, in effect since May 25, has been lifted today in Algonquin Region, Natural Resources Minister Frank S. Miller said.

'Favourable weather conditions, cooperation of the public and our ability to control the few remaining small fires enabled us to remove Algonquin Region as a restricted fire zone,' Mr. Miller said.

Removal of open fire restrictions in the region will permit campfires again in the Algonquin Park interior. The open fire ban continues however, in most of the Ontario North of the French River System where the danger of forest fires remains. In a restricted fire zone no person may start a fire outdoors for cooking or warmth except in a portable stove or charcoal installation.

Campfires are not permitted in any provincial park in the Northern Ontario restricted fire zone. There is no restriction of travel in

the north, but tourists, campers and fishermen are urged to be extremely careful with smoking materials.

In Quetico Park in Northwestern Ontario, campers will not be permitted into the interior without an approved portable stove.

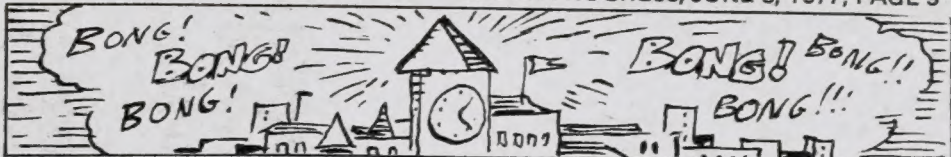

'While the open fire ban has been lifted in the Algonquin Region, severe drought conditions continue to exist and it may be necessary to reimpose restrictions should the risk or incidence of man-caused fires increase,' Mr. Miller said.

'We very much appreciate the cooperation we have received from the public over the past 10 days and I hope that it will continue,' He added.

Mr. Miller also reminded the public that even though

campfires are now allowed in Algonquin Region, fire permits are still required for debris and refuse burning.

Permits are available at no cost from Ministry of Natural Resources Offices throughout the region.

Big Ben, in London, is the name neither of the clock nor the tower, but of the bell that strikes the hour. It's named for Sir Benjamin Hall, who was commissioner of works when it was installed.

New Business

Last Saturday, Summerville Township Reeve, Maurice Watson, officially opened the new 'Insulation by Mitchell Ltd.' Owned and operated by Gord Mitchell, the business is located approximately 5 miles south of Coboconk on Highway 35. Insulation by Mitchell is also the sole Canadian distributor for 'Dyco' Corporation of Clearwater, Florida. This company manufactures 173 different products. New dealer for Dyco Products is Prentice Roads of Minden. Other dealers to date in the Province are Barrie, Orillia and Lindsay. In the top photo, Maurice Watson is flanked at the official ribbon-cutting ceremony by, left to right, David Perreault, M.P. Bill Scott of Victoria-Haliburton, Reeve Watson, Mrs.

Barb Mitchell, Gord Mitchell and daughter Susan Mitchell. Lower photo, Gord Mitchell demonstrates the new 'Dyco' paint. On the left the temperature of the roof of a model home is 95 degrees and the inside is the same. However on the right hand model home, the outside is 95 degrees but the inside is only 65 degrees after a coat of the special Dyco paint was applied. The paint not only acts as an insulator but also seals and waterproofs, and can be used on wood, concrete or metal for both mobile homes and recreational vehicles.

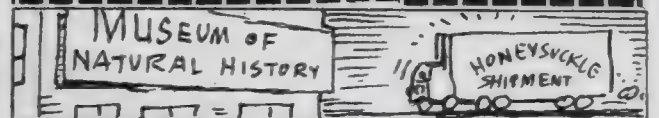

In 1930, Johnny Pearce, then 17, swam two and one-half miles with a lighted pipe in his mouth.

Bell Tower

Check reveals 4 out of 105 vehicles unsafe

Trent-severn Waterway News

The Ministry of Transportation and Communications held their annual Vehicle Inspection last week at the Ministry's yards in Haliburton.

One-hundred and five vehicles were inspected during the period of May 31 - June 2, and of this number only four persons were charged with operating an unsafe vehicle.

However thirty-four persons are to report to the Ontario Provincial Police with the necessary repairs to their vehicles having been completed. During this safety check twelve sets of license plates were either seized or surrendered to the O.P.P.

Reservoir storage available declined since last week to a level 82 per cent of maximum on Monday May 30. This resulted from increased outflows needed to maintain navigation levels in the Kawartha Lakes downstream. Evaporation in the Kawarthas averaged somewhat less than 1/4 inch per day. This is very close to the high losses experienced in previous summers.

Otonabee River discharges are still being held in the 500 to 600 cfs range, a bare minimum for operation. The average flow for May this year was the lowest since flows have been recorded beginning in 1913.

Boaters are reminded about the speed limit signs which are now placed in certain areas along the Waterway.

These signs are circular and have a white background with an orange border and a black number.

Signs are either situated on a post on the shoreline or on a small white buoy close to the navigation channel. The speed limits will be either 4, 6 or 8 m.p.h. and this can be enforced by the police under the Boating Restriction Regulations of the Canada Shipping Act.

Work by a Canal Construction crew will begin on the concrete restoration of Big and Little Bob dams within the next week or so as part of an on going maintenance program.

The word "mister" comes from a Latin word *magister* meaning "commander."

St. Steven's Anglican Church on the Buckslide Rd., six miles north of Carnarvon now has a new Bell Tower. In the above photo, Bill Gartshore, centre, built and painted this new Bell Tower in his home workshop. On the right is Dough Hough and on the left is Len Stinson, who have just secured the

tower in place on the church roof. Also involved, but on the ground at the time this picture was taken, is Pop Hart.

DON'T FORGET THE DATE!!!

CARD OF THANKS

Once again we enjoyed a very successful FLY-IN at Stanhope Airport last Sunday. This was due in large part to the very good work of the Committee Members, and the many friends in the audience who pitched in to help us.

Committee President, Derek Rolfe, wishes to extend a most hearty thanks to all those involved.

CARD OF THANKS

From the Bud Stevens Family

We would like to express our sincere thanks and appreciation to friends and relatives for their kindness and many cards of sympathy during the loss of our dear son and brother. Thanks to the staff on Hutchingson 3, Civic Hospital, Peterborough for years of devoted care, The Multiple Sclerosis Society of Peterborough and Cheryl Irvine and the Beha Signia Phi of Ajax for the use of the colour T.V. For all the people who took time to visit him, it was greatly appreciated. The John Welch and Son Funeral Home, and Rev. Brown for his comforting words. The Kinette Club of Minden for help with refreshments after the service.

Thank you sincerely, Holly and Diane Stevens and family.

ONTARIO ELECTRICAL LEAGUE
VICTORIA - HALIBURTON CHAPTER
DO YOU KEEP WHITE ELEPHANTS?

Do you change or clean the air filter in your hot air furnace regularly? Dust clogged filters cut down air circulation requiring the furnace to run longer to bring the house to the desired temperature.

clogged filters cut down air circulation requiring the furnace to run longer to bring the house to the desired temperature.

Have you examined outdoor extension cords for fraying and breaking of insulation? Not only are frayed cords dangerous, but contact with snow or wet grass could result in power leaking away to the ground.

Do you have an automatic washer or dryer? If so, try putting the clothes through a second spin dry in the washer. Doing this cuts the time in the dryer substantially.

Cutting back the thermostat on your heating system at night to 68 degrees from 70 degrees not only is agreeably noticeable on your fuel bills; the cost of cold remedies will probably decrease

Do you play games with the thermostat by moving it up to 80 degrees one minute because you're cold and down to 70 degrees the next minute because you're hot? If you do, it is a relatively expensive game in terms of fuel dollars. To get the most for your money, set the thermostat at the day time temperature you are comfortable with and only cut it back when you retire for the night.

Fly-in "soars" to success...

A record crowd of over 2,000 turned out Sunday to enjoy the Stanhope Airport Fly-in. They were not disappointed, as the most aircraft ever on hand for the Fly-in showed up, 110 in all, including a United Nations DH5 DeHavilland Buffalo, 2 Kiowa Helicopters and a glider, plus many other privately-owned aircraft. While the air-show was in progress, the many air-show buffs consumed 150 pounds of roast beef, dozens of hot dogs, 50 cases of pop and 20 dozen of Len Stinson's donuts.

In the top photo are seen just some of the over 2,000 who jammed the Stanhope Airport to take in the Fly-in. Second row left, John Eakins, M.P.P. Victoria-Haliburton, officially opens the Fly-in. Next to Mr. Eakins is Tom Young of Canadian Airshow Attractions of Peterborough. Second row right, Bodgen Wolski of Peterborough brings his glider in for a three-point landing after putting on a brilliant aerobatic routine for the crowd. Third row, 2 Kiowa Helicopters from 427 Squadron in Pettawawa, fly past

the flight tower at 120 miles an hour in perfect formation. The pilots of the two Army helicopters were Captains' Wardley and Roher while their observers were Sgt. Pettison and Master Corporal Hewitt. Second from bottom right, a DH5 DeHavilland Buffalo from 424 Squadron in Trenton. This United Nations Emergency Force aircraft just returned recently from Ismailia, Egypt. The 36,000 lb. aircraft has a crew of five, is capable of carrying 28 passengers plus cargo totalling 15,000 lbs. Lower right, Walter W. Cromwell, displays some of his hand-carved aircraft. Mr. Cromwell owns and operates High Flight Photos in Madoc. He carves all types of aircraft, from bi-planes to the most recent jet fighters, in wood, some costing as high as \$30.00.

Mr. Derek Rolfe, president of the Stanhope Airport committee, wishes to commend the pilots on the way they handled the crosswinds at the Airport on Sunday, that gusted to 27 miles per hour at times.
